

Night Show Introduction

(NOTE: The Team AeroDynamix introduction is part of our show time – part of our box time. Listen on Discreet for time calls from Flight Lead and read the intro **2 minutes out** – before we enter from overhead and behind the crowd and before the music starts.)

In just a moment, Team AeroDynamix will **FILL THE SKY** with the beauty and excitement of close formation aerobatics ... at night.

Team AeroDynamix has more airplanes in this performance for you this evening than any other air show act in the world. We are thrilled to be here tonight at _____.

At the start of our show, just after official sunset now, you'll see the distinct colors of every airplane amid the flashing strobes and lights in this gorgeous ____
(location) _____ sky.

As darkness descends, our specially mounted smoke lights create afterburners on our custom built aircraft. Finally, as darkness closes in, the entire team transforms into one giant UFO – that's UNFORGETTABLE FLYING OBJECT—as we maneuver into our signature large formations right before you here at show center.

At this special time of day, we invite you to enjoy the music, the lights, and the smoke in this dazzling display we call **Formation Sensation**.

(Listen on Discreet for “Music starts now, now, now.”)

Now look to the sky – it's TEAAAMM AEROOODYYYYYNAMIIIIIXXXX!!

(Now resume with regular narration.)
